

La San

This is my first year at La San. I love to watch the animated movies in the morning. I like every subject but English and Studies. Usually after school I wash the cups with the TAs. Going to La San makes most of my day fun.

One of my favorite parts of the day is watching the bible stories and the virtue movies. The virtue movies are about two kids named Zach and Annie who have trouble living out the virtues. Plato, their friend, tell them stories about people or talking animals who also have trouble living out the virtues. But in the end, they learn a lesson. The bible stories are animated stories from the new testament of the bible.

My favorite subjects are swimming, art, and computers. I love swimming because we usually play water polo or volleyball. Art is also my favorite because we make cool crafts. I like computers too because we play games. Usually I wash cups after school. It gives me something to do since I have to stay late everyday. Even though it is tedious work, it's also a lot of fun. I really enjoyed my first year here.
