

La San Summer Camp

When I heard that I was going to summer camp in California, I was not excited. I didn't understand why I had to go to California just for a camp, especially since I never went to camp before. However, this camp exceeded my expectations and was more fun than I originally thought. For more than 3 weeks, I was only present for half of the day. There are many good qualities about this camp, such as the staff and people here and I like how there is a schedule for specific classes so you won't forget where to go. LaSan has been a great experience for me.

One quality that I think makes this camp unique is that you don't have to be Catholic to go here. Everyone has the same amount of fun whether or not we're the same religion. Another great quality about this camp is the ticket system because kids are more motivated to do well. Without a doubt, my favorite class is Art and I also love movie time. The Vietnamese movies we watch are weird but funny. I like watching the Bible movies too, even though they're really cheesy. The food here is delicious and is definitely better than the food I get at home. The TA's and teachers make the camp experience a whole lot better because they are always around to help and entertain you when you're bored. They are appropriately strict but we really know they're super cool, nice, and just plain awesome.

La San has changed the way I looked at things. It made my Californian experience 10x more fun than I thought. I'll always remember my time here.
