

## Art Class

This is an encapsulation of my 5 weeks at La San. Art class is extremely fun. I am taught to make cute trinkets such as lanyards, friendship bracelets, and pencil holders. When I am in Art class, I get to sit with my friend, Theresa, while I learn different projects. Sometimes I don't do Art and is replaced with Study Hall. I think both are fun. In Study Hall, I regularly study Math and English.

Art is very pleasant. Even outside art class, people are still continuing art projects. And when school is over you can still make lanyards or friendship bracelets. You can try art yourself and turn out to be a natural. The 5<sup>th</sup> and up grade students are in my art class because I'm in 5<sup>th</sup> grade.

When there are new people each year like me they sometimes get introduced to new art like I did. The teachers introduced me to friendship bracelet making and lanyard making again. I hope many people like art class and will appreciate it. If you ask me I will say that I actually enjoy it and so does my sister, Michelle. My sister is in love with art more than I am.
